Subject: BH Water Management Issues

Well, by now you've received the February 26 letter that Mike and I sent out on long term water management issues at Bunker Hill. I suggest that before we get a workgroup meeting together, the five of us (Sean, Cami, Mike, Rob, Mary Kay) get together on a conference call to discuss the following:

- EPA/DEQ perceptions on lead roles for this effort.
- Agency (both) assumptions regarding cost sharing (90/10 split, 50/50, State request for further cooperative agreement funding, etc.).
- How best to use our respective contract resources (what can TG do, what can Hill do).
- Best way to proceed with obtaining long term funding for this effort (new RI/FS process leading to a ROD, ROD amendment to cover in-mine activities, limp along as far as we can on whatever bits of current funding we can scrape together).

Please e-mail me with your availability for a 1.5 hour conference call during the weeks of March 9, March 16, and March 23 (hopefully we can do this prior to the week of the 23rd). I will set something up.

Mary Kay
